TWENTY THOUSAND Copies sold in less than 5 months. A new edition, revised and improved, just issued Dr. HUNTER'S MEDICAL MANUAL AND HAND BOOK for the AFFLICTED—containing an online of the origin, progress, treatment and oureof every form of disease, contracted by promiscuous sexual intercourse, by self abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities, and everything that would offend the ar of decency, from the result of some twenty years successul practice, exclusively devoted to the cure of diseases of a elicate or private nature.

To which is added receipts for the cure of the above dis-

so a graduate of one of the best Colleges in the United States. It affireds may pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose homor and integrity they may place the greatest confidence.

JOSEPH LONGSHORE, M. D. FROM A. WOODWARD, M. D., OF PENN. UNIVERSITY, PHILADELPHIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the 'Medical Manual.' Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my no-tice, in which his skill has been manifest in restoring to per-Bet health, to some instances where the patient has been considered beyond include aid. In the treatment of Seminal Weakness, or disarrangement of the functions, produced by self abuse or excess of years, I do not know his supe-for in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice o him, as well as a kindness to the unfortunate victim of arriving indiscretion, to recommend him as one, in whose proesional skill and integrity, they may safely confide them-

ALF. WOODWARD, M. D. "This is, without exception, the most comprehensive and intelligible work published on the class of diseases which it treats. Avoiding all technical terms, it addresses itself to the reason of as readers. It is free from all objections ble matter, and no parent, however fastidious, a to placing it in the hands of his sons. The author has detreated of, and with too little breath to puff, and "too littreated of, and with too finds threath to but, and a con-tile presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruits of some twenty reara most successful practice."—Herald.

A Presbyterian elergyman in Ohio, in writing of "Hunter's Medical Manual," says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realiz ing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising families have been enfectived, if not broken down, and they do not know the cause or the cure. Anything fliat can be done so to enlighted and influence the public mind as to check, and ultimately to remove this wide spread source of human wretshedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present an coming generations. Intemperance (or the use of intoxi-cating drinks,) though it has slain thousands upon thousands, is not a greater scourge to the human race. DR. MORSE'S INVIGORATING ELIXIR OR CORDIAL.

For centuries, Medical science has been ranaching the vegetable and immerial kingdoms, in search of something that should restore the lost of slocking energies of the nergons and muscular systems, without the drawback of subsequent prostration, when all stimulants, tonics, and narrootes had harotofore entailed. That something has been feaned. It is a vegetable production, brought from the sterile deserts of Arab a the Stony, by the celebrated Professor M. Morse, well known as a dissinguished member of the bading scientific sociaties of the Old World, and equally distinguished as a physician, a chemist, and straveler. The jurces of this nerb, concentrated and combined with other vegetable medicinal extracts, are now producing results beet ofore understood, in this or any other country. At first the properties strictled to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL were decimed fabrious. The public often deceived could not believe the simple and subtime truths announced by the discoverer. But face, undomiale incis sticsted by witnesses of the highest class and character, are now tringphing over all doubts. The feed ble girl, the airing wife, the laties, constraint youth, the overworn man of business, the victim of mercond depression, the individual suffering from general debility, or from the weakness of a single organ, which is the distributed and permanent relief from the use of this incomparable conovator.—To those who have a profits position to tambiest it will prove a complete and unfailing safeguard against that terrible maindy. The derangements of thosystem, leading to nercoundiseases, and the forms of nervous diseases, and the forms of nervous diseases itself, arm so immerous that it would require a column to enumerate the miladies for which this preparation is a specific. Whenever the organs to be acted upon are free from mel-formation or strictural diseases it is averred that

Bear in mind also, that for eve-ry kind of nervous disease the Ettnir Cordial is the only re-liable preparation known.

Cure of Nervous Diseases. No language can convey an alequate idea of the immediate and aimost mirriculous change which it occasions in the discussed, debilitated and shattered nervous system, whether broken down by excess, weak by anture, or impaired by sickness, the unstring and relaxed organization is at once braced re-vivified and basic up. The mental and physical symtoms of nervous disease vanish together under its officence. Nor is the effect temporary; on the century, the relies is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.—Well may the preparation be called the

HENRY'S INVIGORATING CORDIAL, This invaluable Cordini, is extracted from it which have been found after years of experience. which have been found after years. I experience, by the itios at lifted Physicians, to be possessed of qualities most beneficial in the diseases for which it is recommended, and hence whilst it is presented to the public as an effications remedy, it is also known to be of that character on which reflance may be placed as to its safety. In cases of imputency, Henorthages, Disordered Stortillty, Menstraction, or Suppression of the Menses, Flour Albas or Whites, or for

Debility

nrising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for Females after confinement, Abortion or Miscarriage, this Cordial cannot be excelled in its adhtery effects or in loss of Muscular Energy, Irritability. Physical Prostration, Seminal Weakness, Palpitation of the Heart, bedigestion. Sleggishness, Decay of the Procreative Functions, Nervousness, &c., where a rosso Medicine is required, it will be found equal, if not superior to any Compound ever used.

To Femmles.

To Females. Henry's Invigorating Cordial, is one of the most vatuable Medicines in the many Complaints to which Females are subject. It assists nature to brace the whole system, check excess, and creates renewed health and happiness. Less affering, disease and unhappiness among Ladies would exist, were they gonerally to adopt the use of this Cordial—Ladies who are debilizated by those obstractions which females are limite to, are restored by the use of a bottle or two, to bloom and to viror.

to bloom and to vigor. That solitary practice, so fatal to the existence of man and it is the young who are most api to become its victims, from an ignorance of the danger to which they subject themselves,

Nervous Debility, Weakness of the System, and Premature Becay. Many of you may now be suffering, missed as to the cause or source of disease. To those, then, who by excess have brought on thomselves Premature Imporency, Involuntary Seminal Emissions, Weakness and Shriveiling of the Genital Organs, Nervous Affection, or any other consequences of unrestrained indulgence of the sensual passions, occasioning the necessity of renouncing the felicities of

Marriage, lessoning both mental and bodily capacity. Hold! Henry's invigorating Cordial, a Medicine that is purely Vegetable, will aid nature to restore those important functions to a healthy state, and will prove of service to you. It possesses rate virtues, is a general remover of disease, and strengthener of the system. As a Tonic Medicine,

it is unsurpassed. We do not place this Cordial on a footing with quack medicines, and, as is customary, append a long list of Recommendations, Certificates, &c., beginning with—
"Hear what the Preacher says," and such like; it is not necessary, for "Heary's invigorating Cordial," only needs a trial to prove that it will accomplish all we say. The Genuine "Henry's Invigorating Cordial," is put up in s on Pannel Boilles, and is easily recognized is the Manufacturer's signature on the label of each Bottle, (to counterfeit which is forgery,) as well as the name blown in

the glass.

—For the disease of Females, is one of the most extraordinary and valuable medicines now extant. It is prepared by Dr. Trios. Its discovery was the re ult of chance, while experimenting on remedies for a totally different train of disorders. For a x years it has been tested in every part of the world. In the State of Tennessee it has performed wonderful cures. I will not say that it has been successful in every case, but when it does not cure it neverfails to re-lieve the most distressing symptoms. I am permitted by William Parkes, Esq. of Lawrenceburg, to state that in a few weeks it completely cured his negto gerl, who had been for five years in the hands of physicisms who had not been able to relieve her.
